

GetContractAttachments (GET)

Overview

- This will fetch you all the attachment type section present in UI if present as below.
 - Contract Languages
 - Attachments
 - Notes
- The API takes revised contract number (UI field contract number) as a parameter.
- API will fetch details mentioned in first point of a particular contract only, as per the given revised contract number.
- If you want to get attachments from the latest Contract copy which is in Executed / Live/ Being Amended status, pass one additional parameter as 'returnLatestCopyResult' as true and in the previous param i.e. "revisedContractNumber" pass document number of contract (without revision no. for eg: CDR0012835)

URL Format:

```
https://api-leoaksqc.gep.com/leo-clm-v2-  
aggregator/api/v2/aggregator/AllAttachmentByContractNumber?revisedContractNumber=CDR0  
092383.0'
```

URL Format for latest contract copy as mentioned in overview:

```
https://api-leoaksqc.gep.com/leo-clm-v2-  
aggregator/api/v2/aggregator/AllAttachmentByContractNumber?revisedContractNumber=CDR0  
012835&returnLatestCopyResult=true
```

Request

Only strings params as shown in URL format.

Response structure

```
[  
  {  
    "name": "",  
    "classification": "",  
    "type": "NotesAndLinks",
```

```

        "accesstoSupplier": "",
        "addedOn": "",
        "addedBy": "",
        "fileid": "",
        "status": null,
        "signedMode": null,
        "addedIn": null,
        "revisionNo": "0",
        "fileURL": ""
    },
    {
        "name": "",
        "classification": "",
        "type": "Attachments",
        "accesstoSupplier": "",
        "addedOn": "",
        "addedBy": "",
        "fileid": "",
        "status": "",
        "signedMode": "",
        "addedIn": null,
        "visibility": "",
        "fileType": "",
        "revisionNo": "",
        "fileURL": ""
    },
    {
        "name": "",
        "classification": "",
        "type": "Contract Language",
        "accesstoSupplier": true,
        "addedOn": "",
        "addedBy": "",
        "fileid": "",
        "status": "",
        "signedMode": "",
